Fixing leaks can save you BIG BUCKS

City of Plant City – Leak Adjustment Policy in part

If a leak is found on your property, you may be eligible for an adjustment if you meet the required criteria:

- Use 5,000 gallons of water over the monthly average consumption
- Notify the City of Plant City - Utility Billing Department
- Provide proof of repair or purchase (plumber's invoice or part receipt)
- Fill out an Adjustment Request Form
- Adjustments are only given for two consecutive billing periods

Types of leak adjustment credits: toilet, sink, shower, busted pipe, broken faucet, outside leak and wall leak. Possible credit could include water and or sewer.

We also give credit for new pool fill, pool facelift and pool repairs if it requires more than 5,000 gallons. Customer Service must be contacted 72 hours in advance before the pool is filled, so that the meter can be read. Possible credit would be sewer only.
