

Curbside Recycling.... *It's Working!*

Our curbside recycling program is a great success. With **your** help, we've been able to recycle more and more of the weekly household trash. That's great news for our community and our planet!

DID YOU KNOW: We also recycle appliances (white goods). All you need do is call and arrange for a "special pickup".

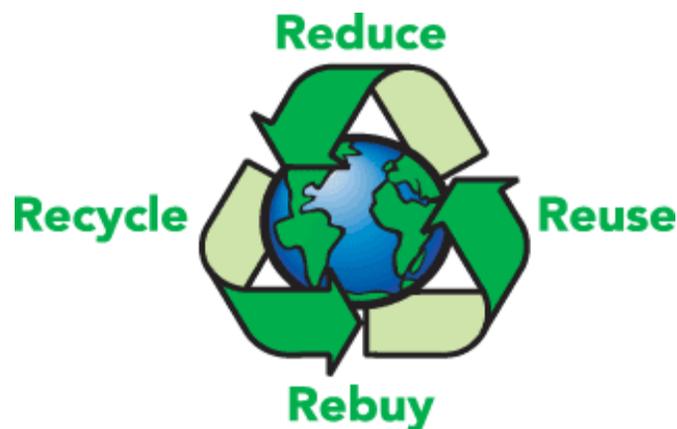

The paper, plastic, aluminum and glass you have been recycling are being made into all sorts of everyday products. Recycling also helps reduce our nation's use of oil and energy.

DID YOU KNOW: Magazines, phonebooks and shredded office paper (bagged) can be placed in, or next to, your recycle bin for pickup.

There's just one thing left to do!

Talk to your family, friends and neighbors and make sure they are recycling and buying products that are packaged in recycled materials.

For information on recycling, or to request a recycle bin, contact the City of Plant City Sanitation Division at 813-757-9208

The old adage is still true today....

"WASTE NOT, WANT NOT"
